

Applying the Principles to Decision Making for Residential Hospice

HPC Lead supports the Network tables, escalates issues/barriers to the LHIN, and coaches tables on continued alignment to guiding principles and planning and development principles

LHIN Staff support process by preparing materials to inform Board decision making based on recommendation from Leadership Committee.

All recommendations and decisions are aligned with guiding principles and planning and development principles

Planning

Local HPC Collaborative

Responsible for developing the sub-region unified solution. Ensures principles have been applied throughout engagement and development of the plan.

Endorsing

HPC Leadership Committee

Reviews local plan for alignment to vision and principles. Identifies elements of strength and components that require additional development.

Endorses the plan when ready for LHIN staff review and development of recommendation to LHIN Board.

Recommending

LHIN Staff

Conducts due diligence and provides assurance to the board that process has been followed and that the plan aligns to vision and principles.

Recommends that the South West LHIN Board consider approving the plan in principle.

Approving

South West LHIN Board

Receives advice and recommendation of Leadership Committee and LHIN Staff. Responsible for decision making that will advance the vision for integrated hospice palliative care in a sustainable manner.

Approves the recommendation and supports movement to implementation phase.*
